Intel Corporation

When I discovered the Electronic and Computer Hardware Internship for Intel on Handshake, I was excited by the opportunity. As a junior majoring in Computer Engineering at University of Buffalo, I enjoy learning and working on this field. My coursework and campus involvement have prepared me well for this position. I have taken coursework's such as Electrical circuits, signals and system, data structures, embedded system, real time operating systems and many more which would be efficient in such field.

I have experience on fabrication and tinkering with electronic including bread board, soldering. Some of my other skills and experience are Java, Python, C and assembly language like Mips and Arm. This knowledge will be an asset to this position. I would be thrilled to learn more alongside other members.

My enclosed resume expands on my coursework, employment, and campus involvement. As I prepare for a career in computer & electrical engineering, I am dedicated to gaining practical experience to complement my coursework. Thank you for your time and consideration. I look forward to hearing from you soon.

Sincerely,

Saugat Bikram Khadka
